DECLASSIFIED AND RELEASED BY  
CENTRAL INTELLIGENCE AGENCY  
SOURCE METHOD EXEMPTION 3B2B  
NAZI WAR CRIMES DISCLOSURE ACT  
DATE 2007

**MEMORANDUM FOR: Chief, WPS**

**THROUGH: Chief, SR Division**

**SUBJECT: Response to Wartime UW Requirements to  
support USCINCEUR OPLAN 100-2, 1 Aug. 1962**

1. The revised Annex H (UW) to USCINCEUR OPLAN 100-2 has been carefully reviewed and re-evaluated in the light of both the AEDEPOT cadre changes and changes in the UW requirements.

2. It should be noted that a 72 hour readiness for CONUS departure is not entirely realistic at the present time. This figure implies that the individual agents would be alerted, assembled at a pre-designated staging area, completely equipped and briefed to a certain degree. At the present, although there is an alert and assembly plan, no definitely approved staging area has been designated. Signal plans are in the process of formulation and radio sets are being acquired. In addition, efforts are underway to make up the individual pack equipment (documentation, clothing, etc.). At the present moment, only a limited number of teams could be ready by D+15, but it is hoped that all teams will achieve the necessary state of operational readiness within the near future. The following changes in the acceptance status should also be noted: SR-1013 from A to B, 1014 from B to A, SR-1015 from B to C and SR-1016 from A to C. These changes were necessitated by a re-evaluation of agent assets with an emphasis on Priority I targets and, in the case of SR-1015 and 1016 by the scarcity in numbers in the appropriate ethnic groups among whom recruiting efforts could be conducted. SR/DOB is however attempting to develop a potential in this direction.

3. Attached to this memorandum and returned for your information is the SR/DOB revised capabilities report in support of USCINCEUR OPLAN 100-2 dated 10 March 1962, with the proper annotations.

4. ☐ ☐ SR/DOB/P&P may be contacted (11-57724) if further information or clarification is desired.
